MEMORANDUM OF UNDERSTANDING

PARTIES

District Education Board of Nakuru District

and

So They Can

INTRODUCTION

This document replaces in full and final the Memorandum on Understanding entered into between the parties dated 23/10/2010.

The Government and So They Can are to work together to create Aberdare Ranges Primary School (“the school”). The school will provide excellent education for the neediest children in order to ensure a high success rate in the Kenyan Certificate of Primary Education examinations and enable the students to enter and complete secondary school.

The spirit of the school is demonstrated through its motto: through effort comes success. This spirit will be seen in the effort put into the school by its parents, students, teachers, District Education Office (“DEO”) and So They Can.
The Government obligations

The Government through CDF/LATF will assist financially with the construction of the school, financing at least one classroom per year.

The Government will ensure the school is supplied with regular and consistent electricity and running water at no cost to So They Can.

The Government will provide and fund:

1. The best teachers and head teacher to ensure the school provides excellent education to its students.
2. Stationery and text books for every student at the school.
3. All necessary teaching resources for the school staff.
4. School administration costs, including but not limited to office stationery, photocopiers, fax machines.

The Government will select the three best teachers for the school in accordance with the following process:
1. Advertise regionally for the positions of primary teacher at the school.
2. Select the most appropriate candidates based on written application received.
3. The most appropriate candidate will be determined using the Government selection criteria as provided to So They Can.
4. Interview the candidates.
5. The MEO will then put together a report ("the report") outlining each candidate’s strengths and weaknesses and the MEO's candidate of choice. The report will be sent to So They Can.
5. So They Can will select the best candidate from the three best teachers within 10 working days of receiving the report.
