THE PEOPLE'S PLAN

GOAL

An effective, decentralised and inclusive skills system that supports a stable, prosperous and sustainable Vanuatu

- **better link** 'skills demand' with quality 'skills supply' to **upskill our people** in priority areas while at the same time facilitating **access to markets**
- to achieve **economic growth outcomes** (business growth, jobs) in priority sectors (Tourism, Handicraft, Agribusiness and Construction) in the provinces
- to demonstrate success through **small scale models to influence systemic reform**
- to mainstream gender equality, disability inclusion and environmental considerations to ensure economic growth is **inclusive** and **sustainable**.
