

PNG Election Results Database

Terence Wood

terence.wood@anu.edu.au

Thank you:

PNG Pmt Library, PNGEC, Jon Fraenkel, Nicole Haley

Devpolicy & SSGM

Salwa Dastgeer, Wilma Gillies, Joshua Ryan

What? how?

- Online and printed resource of election results from 1972 to 2012 (we hope!)
 - Available for analysis
 - Have already done this for Solomons

<https://solomonislandselections.wordpress.com/>

SOLOMON ISLANDS ELECTION RESOURCES

ELECTION RESULTS

Important note to researchers. You are welcome to use these datasets in your own research but please acknowledge where the data came from originally. I would suggest the following citation:

Wood Tenenot, 2015. Solomon Islands Election Results Database 1987-2014. Accessed online at: <https://solomonislandselections.wordpress.com/election-results/>

Also, please note that my data are not official election results. These can only be found in the Solomon Islands Parliamentary Gazette. I double checked all data to original sources but am not responsible for any remaining errors.

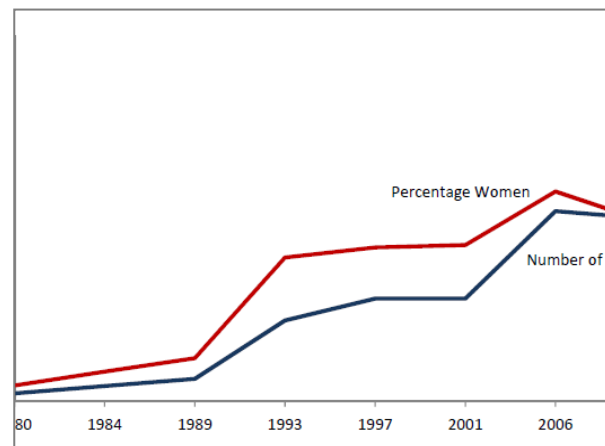

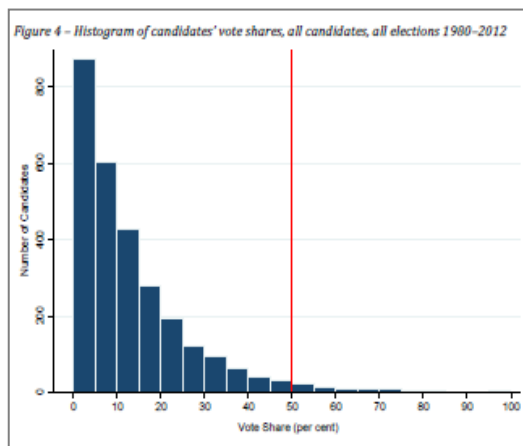

Results as PDF Files

1987 to 2002 Results

In the middle of 2014 I published a short book containing election results for all Solomon Islands general elections (and some by-elections) from 1987 to 2010. You can download this book [here](#). If you are not very good using Microsoft Excel you may find this the easiest way to make use of the data.

2014 Results

You can download a pdf file of the 2014 election results [here](#).

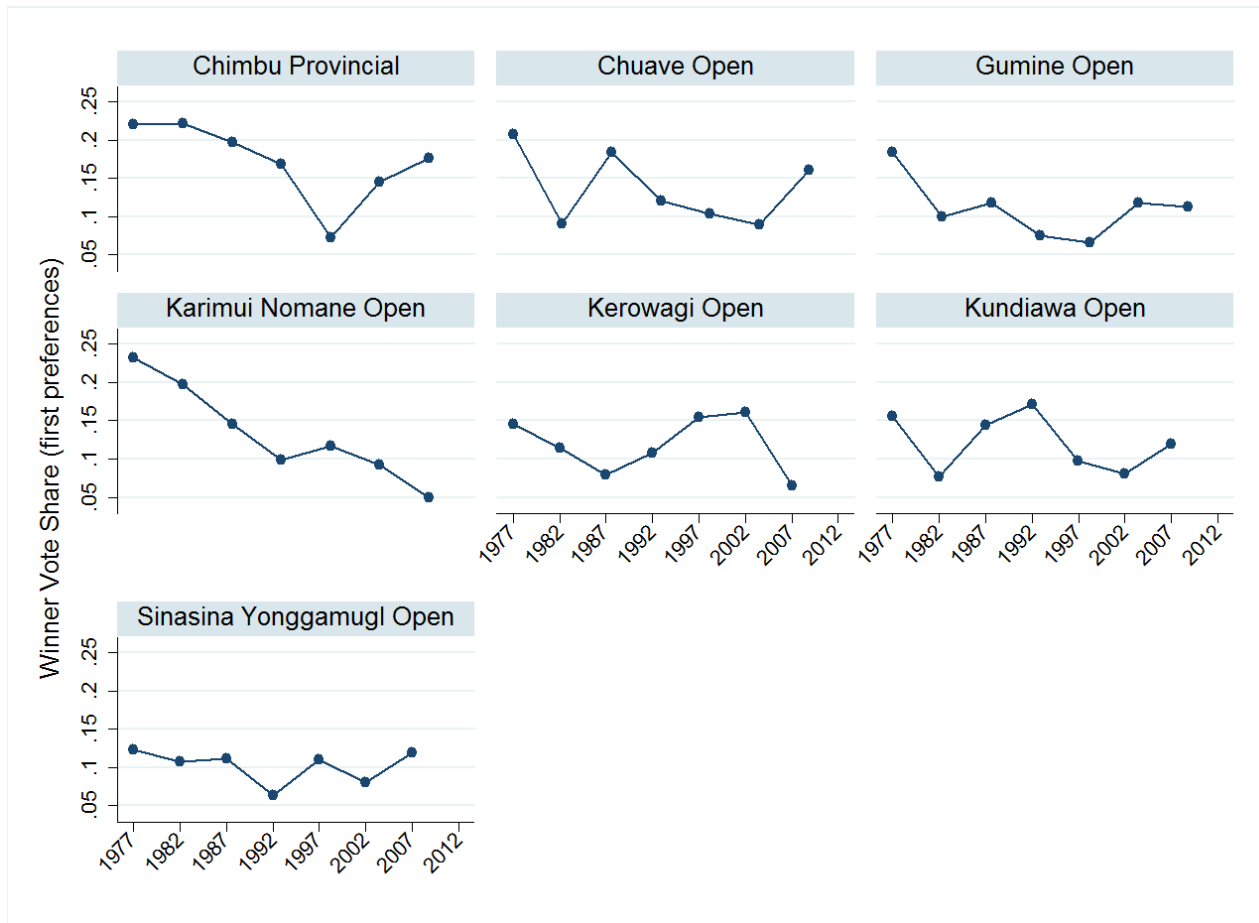

Why?

- Election Results are part of a nation's history (and they will be lost!)
- Capturing trends and patterns
- Assisting research on how electoral politics work
- Learning about policy impacts

A (big) problem...

Getting reliable data for 2007 and 2012 in PNG

Candidate trends...

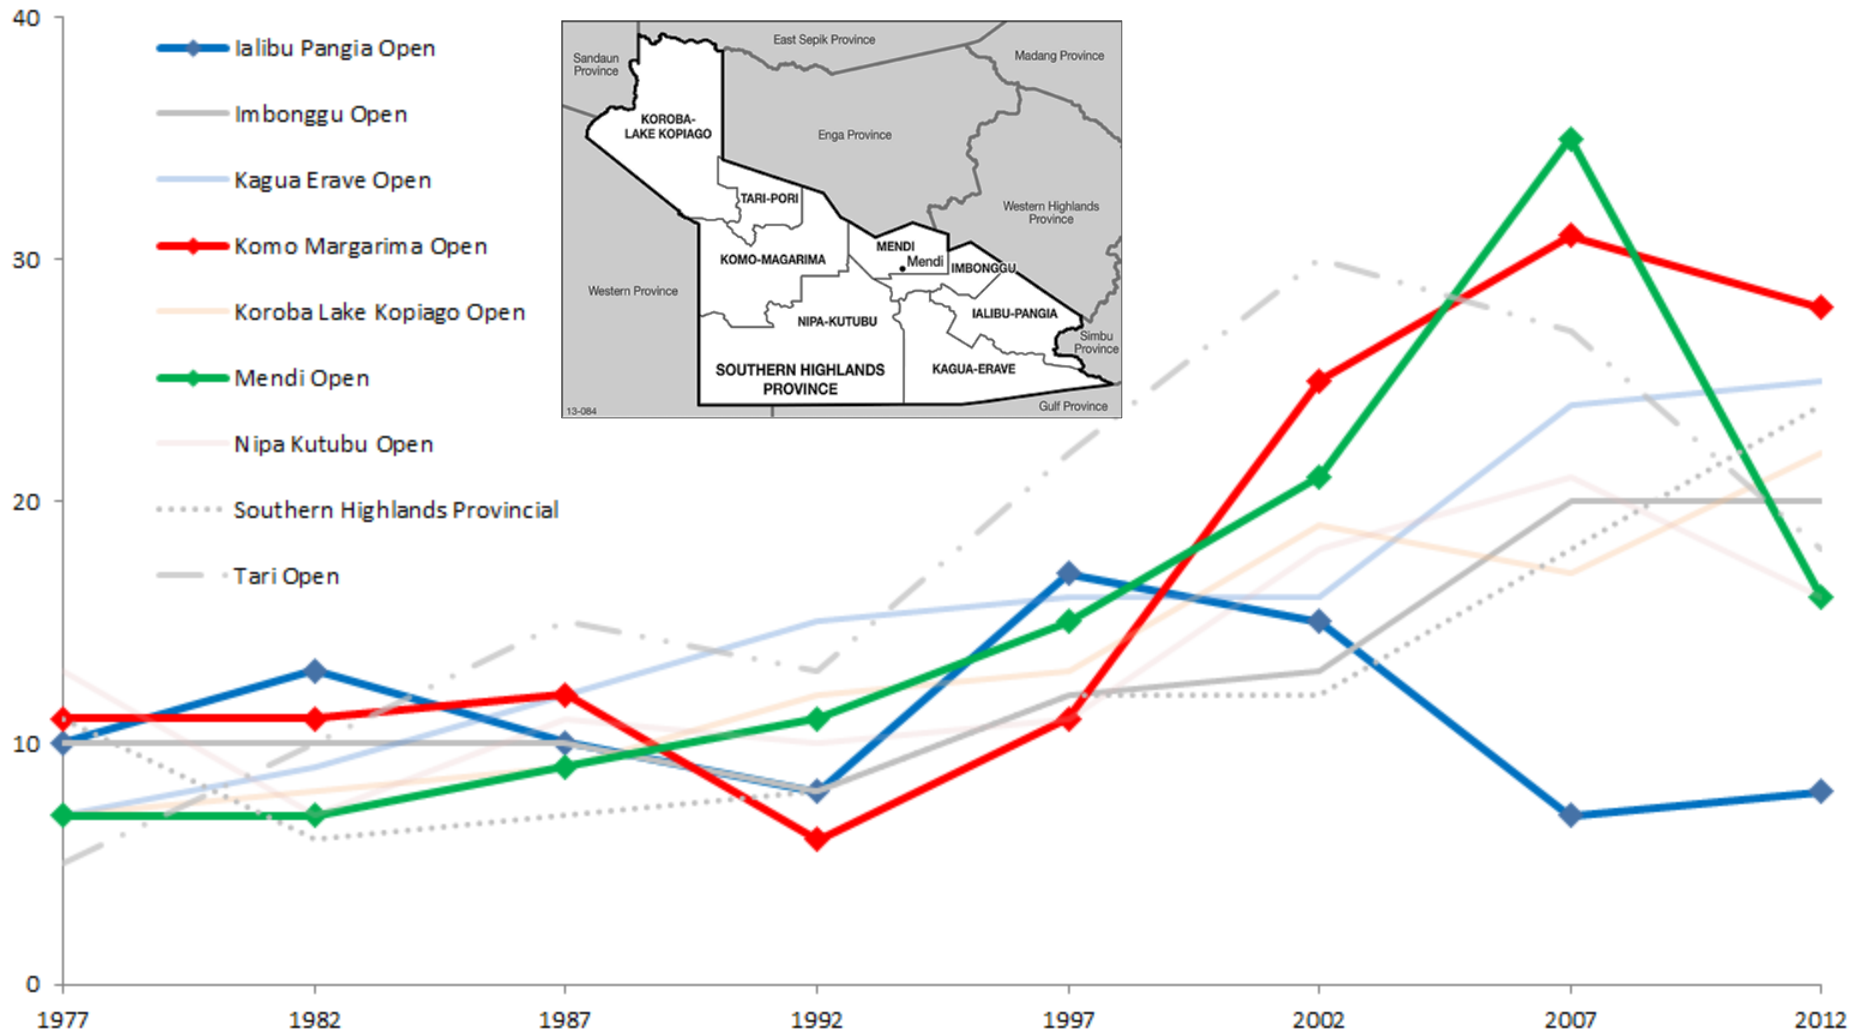

Much National Variation!

Southern Highlands Province – within province variation

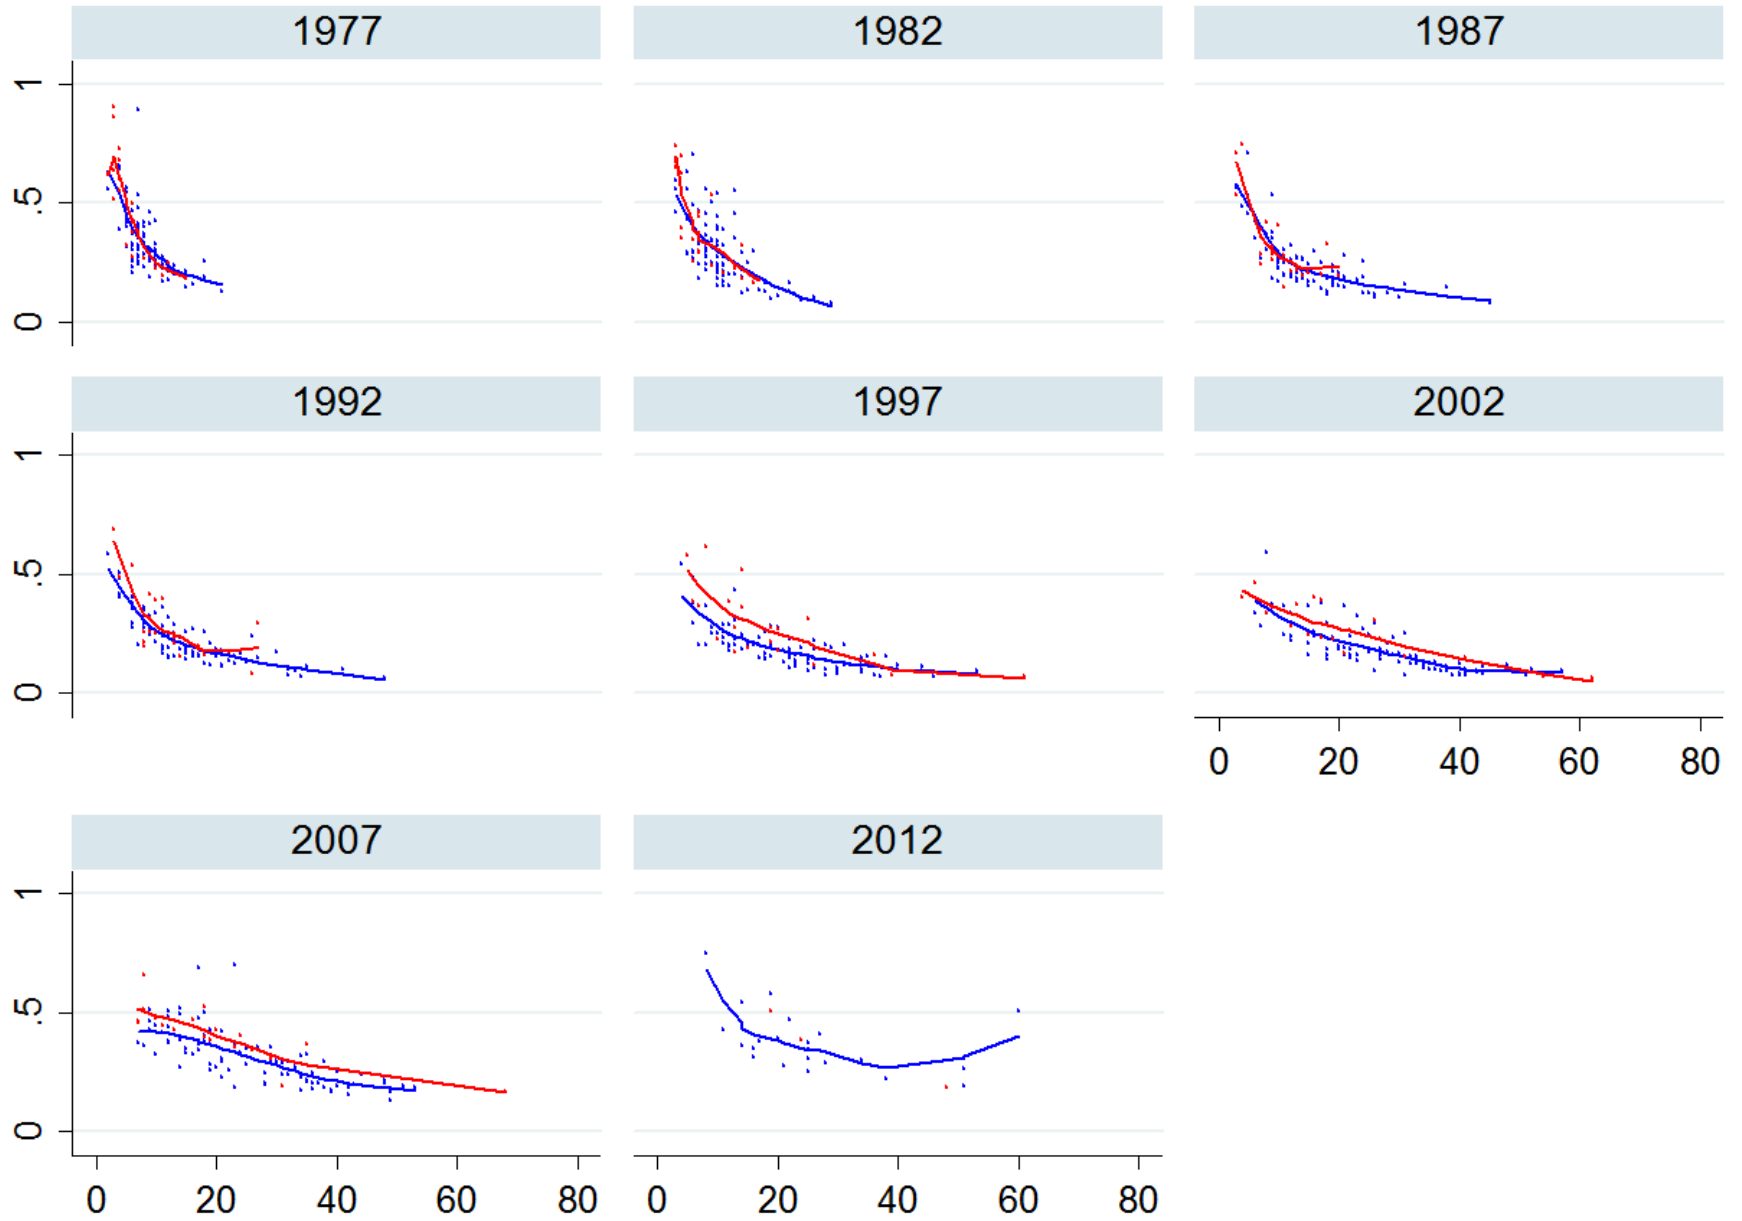

what explains rising candidate numbers?

relationship between number of candidates and winner vote share all elections
1977-2012 (2007&2012 after prefs; limited data for 2012)

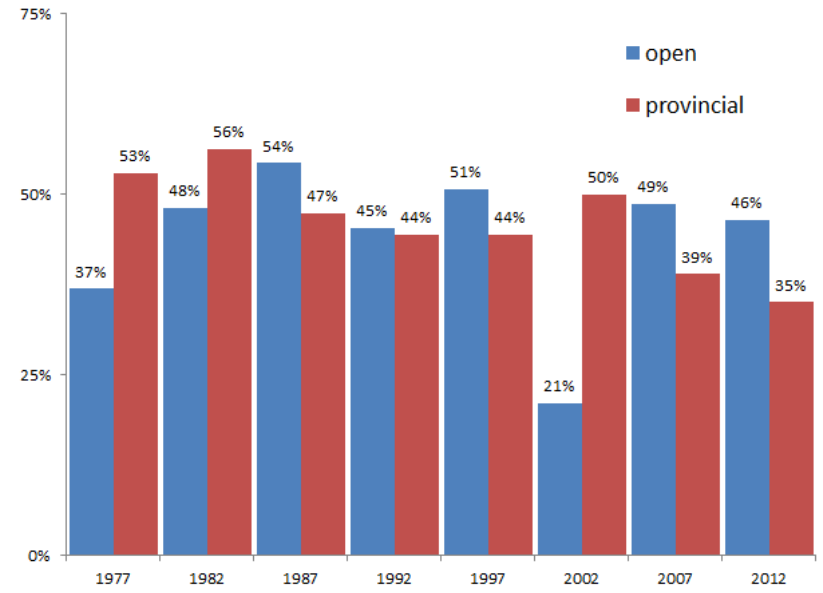

winner vote share (after preferences 2007&2012)

winner's share of votes (first preferences 2007 & 2012)

Incumbent Survival

Concluding:

- ongoing project
- the best research will be mixed methods (PNG researchers!)
- not just research but policy (and personal) choices

Thank you

candidate performance (first prefs 1977-2007)

average winner vote share (after prefs) 1977-2007 by province

winner vote share vs incumbent survival averaged all constituencies in province and across all years
