**PNG election database**

How has candidate voter share changed across PNG over the last few decades? How do female candidates typically fare? You can find the answers to all this and more in the new [Papua New Guinea Elections Database](https://www.oxfam.org/au/blog/personal/4871225157), an interactive tool for analysing electoral results and trends in PNG at constituency level over the last 40 years.

Terence Wood was in PNG to launch the database, and you can read coverage of the event here, and hear him interviewed on [ABC’s Pacific Beat](https://www.abc.net.au/pacificbeat/index.html). You can also read his blog on [key electoral points](https://www.oxfam.org/au/blog/personal/4871225157), and discussion paper here.

A reminder that the PNG Update 2017 will be held on 10 – 11 August 2017, and that a call for papers has been issued. Abstracts are accepted until 28 April 2017. Further information here.
