Despite appeals to reform the selection process for leadership appointments, international financial institutions (IFIs) have been slow to change their ways.

However, in 2012 and under a unique set of circumstances, the European Bank for Reconstruction and Development (EBRD) bucked this trend with the meritocratic selection of a new leader, Sir Suma Chakrabati. Bob McMullan, former MP, Devpolicy Visiting Fellow and an Executive Director of the EBRD, recounts the experience, and reflects on how the selection processes in IFIs could be improved. Read the policy brief here [PDF] and a blog here.

**Pacific Update conference program now available**

This year’s Pacific Update conference will take place at the University of the South Pacific Laucala Campus on 20-21 June 2017. A draft program is now available [PDF]. Dame Meg Taylor, the Secretary General of the Pacific Islands Forum, will provide opening remarks. Other hot topics up for discussion include the blue-green economy; labour mobility, markets and job creation; and enhancing connectivity in the Pacific. Join us for the region’s premier public policy form. More details here.

**PNG drought and frost**

On Wednesday 7 June at 3.15pm, Devpolicy will host a public forum entitled *Drought and famine relief in Papua New Guinea, 2015-2016*. In 2015, PNG was affected by a series of severe El Niño induced drought and frosts. The effect on rural communities was devastating, with food and water shortages, adverse health effects and school and service closures. The forum will discuss the impact of the drought and the aid response. More detail here, and register your interest here.

**RDI development conference and student award**

On 13 - 14 June, the Research for Development Impact (RDI) Network and the University of Sydney will host the 6th annual RDI Conference on the theme of *Partnering for Impact on Sustainable Development: collaboration, coordination and solidarity* – Devpolicy will be there, so do come and say hello.

Connected to the conference is a great opportunity for students with a development-related research idea. The Students Partnering for Impact Award [PDF] has been made possible by our Mitchell Humanitarian Award winner Robyn Alders, and offers funding of up to $10,000 for collaboration on original, student-led ideas. Read more about the award here.

People news

This month we bid a sad farewell to two of our staff members. Researcher Anthony Swan, a valuable member of the Devpolicy team since 2013, who has also taught hundreds of Crawford School economics students, leaves us for Geneva, while Henry Sherrell will join the Parliamentary Library as a Research Officer. We wish them both the best of luck.

Ashlee Betteridge has also moved into a new role with us as Program Manager (Research Communications and Outreach) after being a Research Officer with our Centre since 2013.

We are currently seeking a replacement for Henry. If you have labour mobility expertise and are interested in joining Devpolicy as a Research Officer on a casual basis, we encourage you to apply. Details here.

Upcoming events

Drought and famine relief in Papua New Guinea, 2015-2016
