

## 2015 Australian aid stakeholder survey questions

### Introductory message

This survey of stakeholders in the Australian Government's overseas aid program is designed to solicit views regarding the effectiveness, management and volume of Australia's official aid.

Your response to this survey is strictly anonymous and will remain secure.

The survey, drawn largely from questions ran in the 2013 baseline survey in order to maximise comparability, should take roughly fifteen minutes and is split into four sections:

Section 1: Information about the respondent

Section 2: General views about the effectiveness of the Australian aid program

Section 3: *(If applicable.)* Views on the effectiveness of Australian aid based on your direct engagement with the aid program

Section 4: Views on the volume of Australian aid

Most of the questions are multiple-choice. Comment boxes are provided at the end most sub-sections in case you would like to say more.

If you have questions at any time about the survey or the procedures, you may contact Camilla Burkot at +61 2 6125 1844 or by email at [camilla.burkot@anu.edu.au](mailto:camilla.burkot@anu.edu.au).

Results of the survey will be released in February 2016.
