### **Australian aid experiments**

When the Australian government cut aid last year, Australians didn’t exactly race to the barricades. So what might change their minds and drum up support?

To try to figure out this question, Terence Wood [conducted a survey experiment](#) to see what kind of priming information might change Australians’ views on aid budget cuts. It turns out that good old fashioned competition with the UK might be the way to win over patriotic hearts and minds when it comes to aid volume. Join the discussion on the findings in the [comments section of the blog](#).

On Tuesday March 8, we will welcome Professor Rajesh Chandra, the Vice Chancellor of the University of the South Pacific, who will be talking on “Pacific regionalism and higher education” at 5.30 pm at the Barton Theatre, Crawford School. [Register here](#).
